Mutual Assistance for ACA – Austrian Cockpit Association

Dear Mr. Strobl, President

It is with great concern that we heard about the ongoing issues regarding the CLA negotiations at AUA. It is of extreme concern, that the dialogue regarding salary, pension, flight time duty and working conditions has stopped and the management of AUA ignores the concerns raised by its social partners.

Many pilots and their unions worldwide agreed to help their companies during the Corona crisis with special agreements. Looking at the aviation sector now, the crisis is over. 2023 was an extremely successful year for the aviation industry, especially for AUA.

It is time to adapt the working conditions to reality in their entirety. The differences to other Lufthansa Group airlines are considerable. The current working conditions are disproportionate to the performance of all employees in recent years.

We call on AUA management to resume the dialog with the social partners in order to offer sustainable and future-proof working conditions. AEROPERS-SwissALPA and its members supports ACA and the pilots of AUA in any way possible.

Sincerely

Clemens Kopetz
President
