

Finnish Pilots' Association

THE GLOBAL VOICE OF FINNISH PILOTS

Letter of Support

Helsinki, March 28th, 2024

To ACA -Austrian Airlines pilots
President Andreas Strobl

Fellow ACA and Austrian Airlines pilots,

We have been informed via IFALPA that despite of several negotiation rounds, your employer Austrian Airlines, have not been successful and willing to meet the justified requests by pilots for collective labor agreement improvements.

As a vital part of Lufthansa Group, Austrian Airlines pilots have been delivering outstanding operational results at the same time as the airline has been highly profitable. The employer has not acknowledged the fact that Austrian Airlines pilots have remained behind other pilot groups of Lufthansa group during the times when living costs and inflation have increased highly in Austria.

On behalf of Finnish Pilots Association, I want to express our support to your justified cause and extend our support according to IFALPA industrial manual "Request for Assistance to Pilots Stranded Away from their Home Base (2.4.5.)".

In Unity,

Akseli Meskanen
President
Finnish Pilots' Association
